

## **Reopening Plans (Corona Virus)**

### ABC Children's Center

1. Prevent the spread of COVID-19:
  - a. Wash hands often with soap and water. If water and soap are not available, use an alcohol based hand sanitizer with at least 60% alcohol.
  - b. Clean and disinfect frequently touched surfaces.
  - c. Cover cough and sneezes.
  - d. Cover your mouth with cloth face covering when you are inside the center and going out.
  - e. Supervise young children they use hand sanitizer.
2. Monitor and Plan for Absenteeism among staff:
  - a. Coordinate with other local childcare facilities and reach out to substitute to determine their availability if regular staff need to go home.
3. Social Distancing Strategies:
  - a. Keep each group of children in separate room.
  - b. Limit mixing children such as staggering playground time, special activities like art, music, and exercising.
  - c. Cancel or postpone special events.
  - d. Nap time make sure the children's cot and baby crib are 6 feet apart.
  - e. Staggering arrival and drop off times.
4. Parent drop-off and pick-up
  - a. Hand hygiene station should be set up at the entrance of the facility so the children can clean up their hands before they enter.
  - b. Have a child care staff to walk all the children to their classroom and at the end of the day, walk all children back to their cars.
  - c. Infant should be transported in their car seats.
  - d. Same parent or designated person should drop off and pick the child every day. No older people or grandparents should pick up the children.
5. Child screening method:
  - a. Conduct a temperature screening.
  - b. Put on disposable gloves.
  - c. Always sanitize the thermometer with wipes (alcohol-based).
6. Clean and disinfect:
  - a. Develop a schedule for cleaning and disinfecting the facility.
  - b. Routinely clean and sanitize surfaces, objects, and toys that are frequently touched.
  - c. Use only EPA products according to the direction level.
  - d. All cleaning materials should be kept secure and out of reach of children.
  - e. Cleaning products should not be used near children and make sure there is adequate ventilation when using these products.

- f. Clean and disinfect beddings.
